EXPERIENCE

Frontend Developer

Sep. 2023– Present

Blockchain Research Lab

Delhi,IN

- Built responsive and visually striking websites utilizing ReactJS, Tailwind CSS, and JavaScript, optimizing the organization's web platform for enhanced functionality and user engagement. Leveraged modern front-end technologies to ensure consistent, high-quality experiences across various devices and screen sizes.
- Designed UI/UX prototypes and implemented them in the frontend using ReactJS and Tailwind CSS. Collaborated with backend developers to seamlessly integrate these components with APIs, optimizing data flow and ensuring consistent performance across the platform.
